## DAHLIA IMPORTERS

---

---

We make no attempt to list **every** dahlia now in commerce.

We are listing only those varieties which we grow for our cut flower trade and those larger varieties that we grow only for our own personal enjoyment.

Many varieties of foreign dahlias have been grown by us, and discarded, during the past several years. Those listed are the varieties that have grown well for us, which we believe are superior to existing American varieties.

We guarantee the varieties to be true to name and will cheerfully replace any that are not.

Our stock is all "**clean**" — free from any disease and field-grown.

Our gardens are open for inspection. We are just a short drive south of Route 17 and a visit to our garden during September would be well worth your while.

If there is a variety that you would like to have, not listed hereon, please write us. We may have a limited stock of that variety but not enough to have listed. We are always glad to share with you.
